## DETAILED ACTION

### *Amendment*

1. Receipt is acknowledged of the amendment filed on March 3, 2005. In the amendment,  
5 claims 2-4 were canceled, and claim 1, 5, and 7-15 were amended. Currently, claims 1, 5, and 7-  
16 remain for examination.

### *Allowable Subject Matter*

- 10 2. Claims 1, 5, and 7-16 are allowed.
3. The following is the Examiner's statement of reasons for allowance: the claims are  
directed at a supply chain management methods, and a computer program product executing the  
methods. An item, going through a supply chain management, is generated and tagged with a  
fresh unique identifier. The reference contains, among other things, location of the item, and the  
15 each successive components being unique in the context of the preceding component. When an  
item is modified and became a new item (i.e., when milk and sugar are dissolved to be used in  
manufacturing a new item, milk and sugar no longer exist as illustrated in figure 2), a unique  
reference is created and linked with the parent items such as milk and sugar. Such linking  
feature when an item becomes a different item, particularly in a supply chain management  
20 embodiment, are not disclosed or suggested by the cited references.

Any comments considered necessary by applicant must be submitted no later than the  
payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
